More than 20% Efficiency
Captures more sunlight and generates more power than conventional panels.

High Performance
Delivers excellent performance in real-world conditions, such as high temperatures, clouds and low light.¹

Commercial Grade
Optimized to maximize returns and energy production, the E-Series panel is a bankable solution for commercial solar applications.

Maxeon® Solar Cells: Fundamentally better
Engineered for performance, designed for reliability.

Engineered for Peace of Mind
Designed to deliver consistent, trouble-free energy over a very long lifetime.²

Designed for Reliability
The SunPower Maxeon solar cell is the only cell built on a solid metal foundation. Virtually impervious to the corrosion and cracking that degrade conventional panels.

#1 Rank in Fraunhofer durability test.³

High Performance & Excellent Reliability

High Efficiency
Generate more energy per square foot
More energy to power your operations. E-Series residential systems convert more sunlight to electricity by producing 31% more energy in the first year. This advantage increases over time, producing 45% more energy over the first 25 years to meet your needs.¹

Best Reliability, Best Warranty
A better warranty starts with a better product. Proven performance backs up our industry-best coverage, including out warranted 0.25% per year degradation rate.⁴
